

INNOVATORS IN ENERGY EFFICIENCY FOR UKRAINE

Innovators in Energy Efficiency for Ukraine's Sustainable Transformation.

The Programme is aimed at cultivating a new generation of forward-thinking leaders and establishing an inclusive ecosystem that empowers energy innovators to drive energy-efficient reconstruction efforts and propel Ukraine towards a resilient and sustainable energy future.

The initiative seeks to map the market players in the field of energy efficiency and equip them with the skills and expertise necessary to implement a meaningful change in rebuilding the energy sector and economy of Ukraine.

EXCITING OPPORTUNITY FOR INNOVATORS IN ENERGY EFFICIENCY

—————> We address the acute needs to Ukrainian society during the war in order to accelerate post-war recovery, reduce the negative impact on the society and secure inclusive, sustainable rebuilding of post-war Ukraine

 **Application Deadline:**
January 29

The "**Innovators in Energy Efficiency for Ukraine**" program was initiated by Impact Force with the support of the "Promotion of Energy Efficiency and Implementation of the EU Directive on Energy Efficiency in Ukraine" project, implemented by GIZ on behalf of the German government and co-financed by the Swiss government, in cooperation with the Ministry of Digital Transformation of Ukraine, the Office of Entrepreneurship and Export Promotion, Diia.Business as well as the State Agency for Energy Efficiency and Energy Saving of Ukraine. The program is aimed at shaping a new generation of forward-thinking leaders and creating an inclusive ecosystem that will enable energy innovators to move Ukraine towards a resilient and sustainable future.
